Latch Lock and Plate

Lenlok Non-Clutching Cam Lock for Padlock

Non-clutching cam lock that is secured by a padlock. It has concealed extrusion to cover the padlock shackle that secures it. Ideally made for sheet metal manufacturers, it can be used in locking letterboxes, metal boxes of any type and parcel boxes.

Simple to operate, insert your padlock into the area provided to secure and once unlocked, turn to open. It comes with a 19mm body length and has no locking cylinder. All locking is done by the padlock (which is not supplied).

Features

19mm body length
Suits sheetmetal applications
Has the provisions to take a shackle up to 7.9mm capacity
Nut fixed
Padlock not supplied
